PROFESSIONAL SUMMARY

Product designer with 2+ years in enterprise SaaS, AI-assisted workflows, and design systems. Turns complex problems into usable products through user research, prototyping, and engineering collaboration.

WORK EXPERIENCE

Nyusta | Lead Product Designer Nov 2024 - Present

- Led Neostra's end-to-end UX/UI design across 30+ enterprise workflows, including data subject access requests (DSAR), consent management, data mapping, and privacy assessments.
- Created 200+ reusable design-system components, interaction patterns, and accessibility guidance.
- Owned research, information architecture, prototypes, developer handoff, and implementation reviews with founders, product managers, engineers, and customers.

Tejas | Design Consultant Sep 2025 - Present

- Led product design across ContractorBhai, MistriBhai, Helix Labs, Adhikar, and Chiraag for contractor engagement, materials R&D, and business operations.
- Defined product vision, user journeys, workflows, and feature roadmaps with business leadership; established a unified design system and reusable components.

Kamdhenu Group | Junior Product Designer May 2024 - Nov 2024

- Designed dealer-management, contractor-loyalty, and sales-enablement UX with engineering.

WhatCode | Design Intern Jul 2023 - May 2024

- Designed UX/UI for YesBot.ai, CryptoTax, StreetSnap.co, and AI, fintech, and e-commerce clients.

SELECTED PROJECTS

Helix Labs | AI-assisted materials R&D | helixlab-one.vercel.app/projects

- Designed an interactive formulation prototype connecting literature review, candidate formulations, lab trials, and results analysis, with agent-status visibility, constraint checks, and human approval.

ContractorBhai | CRM and AI | ankit.devs.surf/work/contractorbhai

- Addressed relationship managers' reliance on scattered notes through contractor profiles, occasion reminders, editable AI greetings, recipient selection, and WhatsApp sharing.

Atlas | Geospatial sales enablement | ankit.devs.surf/work/atlas-brand

- Designed an iPad-oriented map experience to surface nearby product-use references through location search, filters, project media, testimonials, and order history.

YesBot.ai | Conversational AI | ankit.devs.surf/work/yesbot

- Designed chatbot workflows for knowledge sources, trigger keywords, and conversation management.

CryptoTax | Fintech | ankit.devs.surf/work/cryptotax

- Designed wallet, transaction, portfolio, and tax-harvesting interfaces for cryptocurrency reporting.

SKILLS

Product and UX: Product strategy, user research, information architecture, journey mapping, interaction design, wireframing, prototyping, usability testing

Systems and delivery: Design systems, accessibility (WCAG), human-in-the-loop AI, data visualization, stakeholder collaboration, developer handoff

Tools: Figma, FigJam, Penpot, Framer, Adobe Creative Suite, Jira, Notion, Miro

EDUCATION

Bachelor of Technology in Computer Science and Engineering
Government Engineering College Raipur | Jul 2020 - May 2024

ACHIEVEMENTS

Smart India Hackathon (SIH) 2023 - Runner-up | Rajasthan IT Day 2023 - Runner-up
