ANKIT CHANDRAKAR

Senior Product Designer | UX/UI Design | AI-Assisted Prototyping

chandrakarankit014@gmail.com | +91 6260906952
Portfolio: ankit.devs.surf | linkedin.com/in/ankit-chandrakar-001akki

PROFESSIONAL SUMMARY

Product Designer with 3+ years of design experience across enterprise SaaS, AI-assisted workflows, and design systems. Combines problem solving, user experience (UX), user interface (UI) design, and AI-assisted coding to build working prototypes independently. Uses AI to explore solutions, iterate faster, and manage parallel tasks across research, design, and prototyping, taking ideas from problem definition to functional prototypes.

WORK EXPERIENCE

Nyusta | Lead Product Designer | Nov 2024 - Present

- Lead end-to-end UX/UI design for Neostra, Nyusta's enterprise privacy product, across 30+ workflows, including data subject access requests (DSAR), consent management, data mapping, and privacy assessments.
- Created 200+ reusable UI components, interaction patterns, and accessibility guidance for the design system to support consistent product experiences.
- Own user research, information architecture, interactive prototypes, developer handoff, and implementation reviews in collaboration with founders, product managers, engineers, and customers.

Tejas | Design Consultant (Part-time) | Sep 2025 - Present

- Lead product design across 5 products: ContractorBhai, MistriBhai, Helix Labs, Adhikar, and Chiraag, covering contractor engagement, materials R&D, and business operations.
- Define product vision, user journeys, workflows, and feature roadmaps with business leadership; established a unified design system and reusable components.

Kamdhenu Group | Junior Product Designer | May 2024 - Nov 2024

- Designed dealer management, contractor loyalty, and sales enablement UX with engineering.

WhatCode | Design Intern | Jul 2023 - May 2024

- Designed UX/UI for YesBot.ai, CryptoTax, StreetSnap.co, and clients in AI, fintech, and e-commerce, including chatbot management, cryptocurrency portfolios, and tax reporting.

SELECTED PROJECTS

Helix Labs | AI-Assisted Materials R&D | helixlab-one.vercel.app/projects

- Designed an interactive formulation prototype connecting literature review, candidate formulations, lab trials, and results analysis, with AI agent status, constraint checks, and human-in-the-loop approval.

ContractorBhai | CRM and AI | ankit.devs.surf/work/contractorbhai

- Designed customer relationship management (CRM) workflows with contractor profiles, reminders, editable AI greetings, recipient selection, and WhatsApp sharing to organize scattered notes.

Atlas | Geospatial Sales Enablement | ankit.devs.surf/work/atlas-brand

- Designed an iPad map experience with location search, filters, project media, testimonials, and order history to help sales teams find nearby product-use references.

SKILLS

UX and product: Problem solving, product strategy, user research, information architecture, user journey mapping, interaction design, wireframing, usability testing

AI and prototyping: AI-assisted coding, functional prototyping, rapid iteration, design-to-code workflows, AI agent workflows, human-in-the-loop AI, conversational AI

Systems and delivery: Design systems, UI component libraries, accessibility (WCAG), data visualization, stakeholder collaboration, cross-functional collaboration, developer handoff, implementation reviews

Tools: Figma, FigJam, Penpot, Framer, Adobe Creative Suite, Jira, Notion, Miro

EDUCATION

Bachelor of Technology in Computer Science and Engineering

Government Engineering College Raipur | Jul 2020 - May 2024

ACHIEVEMENTS

Smart India Hackathon (SIH) 2023 - Runner-up | Rajasthan IT Day 2023 - Runner-up
